

# GEOTERRA® GTO MATS

Fast In. Fast Out. Mobilize **GTO FAST.**

**The fast mat system that supports thousands of times its own weight.**

**STRONG & DURABLE:** High density P.E. is built strong, yet is light in weight.

**ECONOMICAL:** Up to 70% less expensive than other mat systems.

**FAST & EASY:** Fast deployment. Fast installation. Needs no heavy equipment.

**EASY ON THE ENVIRONMENT:** Porous pads are reusable. Low carbon footprint.

**DELINEATION:** Yellow bolts for edge or centerline marking are available.

## VERSATILE APPLICATIONS:

- Site Protection Mats
- Site Access & Tracking Pads
- Utility, Mining, Oilfields, Wind Farm Applications
- Large Construction Pads • Helipads

## CONSTRUCTION MAT COMPARISON CHART

DELIVERY/PLACEMENT	TRANSPORTABILITY	HEAVY EQUIPMENT REQUIRED	INSTALLATION SAFETY	EASE OF HANDLING
GEOTERRA® GTO	Very Easy	No	Safe	Very Easy
GEOTERRA® PADLOC®	Very Easy	No	Safe	Very Easy
Composite HDPE Mats	Moderate	Yes	Some Caution	Moderate
Steel and Fiberglass Mats	Very Difficult	Yes	Use Caution	Very Difficult
Timber Mats	Very Difficult	Yes	Use Caution	Very Difficult

PERFORMANCE	STRENGTH	SOFT SOIL BRIDGING	POROUS/RELIEVES PORE PRESSURE	WEATHER RESISTANCE
GEOTERRA® GTO	High	High	Yes	High
GEOTERRA® PADLOC®	High	High	Yes	High
Composite HDPE Mats	Very High	Very High	No	High
Steel and Fiberglass Mats	Very High	Very High	No	High
Timber Mats	Very High	Very High	Slightly	Moderate/Low (if wet conditions)

INSTALLATION	LAYDOWN VERSATILITY	SPEED	EASE OF ASSEMBLY/DISASSEMBLY
GEOTERRA® GTO	Very Versatile	Quick	Very Easy
GEOTERRA® PADLOC®	Very Versatile	Moderate	Easy
Composite HDPE Mats	Versatile	Moderate	Moderate/Heavy Equip.
Steel and Fiberglass Mats	Not Versatile	Slow	Difficult/Heavy Equip.
Timber Mats	Not Versatile	Slow	Difficult/Heavy Equip.

VALUE/COST	INITIAL PURCHASE PRICE	REUSABILITY
GEOTERRA® GTO	Low	Very High
GEOTERRA® PADLOC®	Very Low	Very High
Composite HDPE Mats	High	Very High
Steel and Fiberglass Mats	Very High	Very High
Timber Mats	Very High	High/Moderate if wet conditions
